

## **Machining Fuel Rail**

The Yitong® Machining Fuel Rail is composed of pipes and connector heads. Our factory is responsible for the precise connector head machining. We have several hundreds thousands in stock, The Machining Fuel Rail is for BMW engine component from BMW in Shenyang, China.

## **Product Description**

Ningbo Zhenhai Yitong Machinery Factory is Machining Fuel Rail manufacturers and suppliers in China who can wholesale Machining Fuel Rail. We can provide professional service and better price for you. If you interested in Machining Fuel Rail products, please contact with us. We follow the quality of rest assured that the price of conscience, dedicated service. "To achieve zero faults via continuous improvement, to satisfy our customers' needs and expectations, to make pledges we fully understand and think we can keep, and to keep all commitments to customers on schedule," is our guiding concept.

### **Precision Machining Fuel Rail Connector Components:**

We pursue the management tenet of "Quality is superior, Service is supreme, Reputation is first", and will sincerely create and share success with all clients for Factory supplied China Machining Fuel Rail, We adhere to your tenet of "Services of Standardization, to satisfy Customers' Demands".

Factory supplied China Fuel Rail, Yitong® Machining Fuel Rail, Further, we have been supported by highly experienced and knowledgeable professionals, who have immense expertise in their respective domain. These professionals work in close coordination with each other to supply our clients an effective range of products.

Our Yitong® Machining Fuel Rail are applied in different parts of injection systems. especially for the Automotive engine component. This fuel rail is made for BMW N20 system, with the cooperation lasted over 5 years. Similar machining components we are capable of are as follows:

Ningbo Zhenhai Yitong Machinery Factory

E-mail: [info@yitongmachining.com](mailto:info@yitongmachining.com)

plug, stopper, guide, pressure relief valve, adjustment screws, hollow screws, High-pressure pump and injectors: check valves, connectors, axis, fittings, needle, injector body, sensor body, butterfly pins, DLC needles, pistons and carriers, which has the same techniques requirements as our Yitong® machining fuel rail.

When the Yitong® machining fuel rail connector are finished from material cutting to the last process, we shall use our Ultrasonic Washing Machine to wash the fuel rail connector head in the cleaning room. We provide the cleaned parts which are packaged in a clean room to meet our customers' cleanliness specifications.

Now, we are working on similar machining fuel rail connector head projects, like Geely Automotive, For Automotive, which all require high CNC machining degree. Of course, our capability is not limited to the machining fuel rail system, but more precise part series. Welcome your inquiry!

**Welcome to

**About  
US**

Thank you for your interest in Yitong Machinery, which is a IATF 16949 certified manufacturer in machining and milling. Yitong machinery was founded in 2007 in Ningbo, China, starting from fastener production, later began making high precision fuel injection connector for Automotive industry, mainly for BMW manufacturer and other famous auto companies. Now we have full experience in producing various precise CNC machining, CNC milling components, especially in Automotive, wind power, electrical industries, etc, as well as capabilities in stamping, forging production for clients.
