Yitong® Screw Machining This part is made of steel material, not stainless steel, so we have to make plating after the sizes production. The common plating won't guarantee the anti-rusting well, our clients chose the Zinc nickel plating, which is 720 hours salt spray test report passed. In addition to the big insert, we also provide the small hexagonal inserts as one set with the big insert.

We can accept all kinds of materials, various models of stainless steel, aluminium, copper,
